

18 Joint Meeting with Merseyside Branch of Institute

'THE SUNSHINE OF YOUR LIFE: LIGHT IN HEALTH AND DISEASE'

Professor Brian Diffey, Clinical Director, Regional Physics Department, Newcastle General Hospital. 5.45pm - tea/coffee. 6pm - lecture. 7.45pm - supper. *The sun is responsible for the existence and development of life on earth. Yet there is a dark side to the sun with the ultraviolet component of its terrestrial spectrum being the primary cause of the most common human cancer - skin cancer. In this talk, Professor Diffey will discuss the evidence for and the beneficial and detrimental effects of sun exposure on our skin and propose a strategy for achieving an equitable balance between the two.*
